

CAREER TUESDAY

05.12.2017 ▪ 5:45 p.m. – 7:15 p.m. ▪ Lecture Hall XXIII, WiSo-Schlauch

Company presentation:

Bayer: Science For A Better Life

Bayer is a global enterprise with core competencies in the Life Science fields of health care and agriculture. Our products and services are designed to benefit people and improve their quality of life. At the same time, we want to create value through innovation, growth and high earning power. In this innovative environment, we build on the skills of people who know where they are heading - and on people with a flair for dealing with others.

Trainee Program for International Financial Management (IFM):

The IFM Trainee Program offers career opportunities with a wide spectrum of insights into Bayer's financial and business management activities world-wide:

- **Controlling:** 18-month trainee program familiarizing with our product portfolio and developing a sound understanding of the Bayer business - how the entire value chain is created and preserved, and how numbers and business issues are interlinked. Includes a stay abroad of two to three months.
- **Accounting:** 18-month trainee program covering all functional areas in our global accounting organization, experiencing the accounting processes in all stages first-hand as well as the related functions of our Finance Community. Includes a stay abroad of two to three months.
- **Finance:** 18-month trainee program providing a comprehensive overview of all main functional areas with focus on corporate finance, corporate treasury, corporate financial controlling and asset management pensions.
- **Audit:** 18-month trainee program covering far more than the typical activity spectrum of an auditing company, comprising a broad range of business and supporting functions and including a stay abroad in our Internal Audit Hubs in China, USA or Brazil.

Bayer Business Consulting (BC):

Bayer Business Consulting is a leading in-house consultancy and partner of choice for Bayer in providing management consulting for the Bayer Group companies around the globe. With seven offices worldwide – Leverkusen and Berlin (Germany), Pittsburgh and Whippany (USA), Shanghai and Beijing (China) and São Paulo (Brazil) – and more than 160 employees Bayer Business Consulting

solves strategic, organizational and operative issues for the Bayer Group companies around the globe and thus actively participates in shaping the future of Bayer.

Bayer Business Consulting conducts consulting projects in the areas of research & development, technical operations, supply chain, marketing & sales as well as business transformation and change management. The project assignments will be an excellent starting point for a subsequent management career in line functions within the Bayer Group.
